White Rock Red Cross Not In UGN Drive

White Rock Red Cross will continue to hold a separate campaign for funds to carry on its work and will not join the United Good Neighbour Drive.

"We have no alternative to this course this year, in any case, as it is now too late for us to join the 1956 UGN drive," local Red Cross head, Wm. Moffat, said, at the meeting held in the Masonic Hall on Monday afternoon.

BETTER FOR W.R.

"A second or separate canvass for funds seems better for White Rock," Mr. Moffat said, pointing out that the Vancouver Red Cross held its own campaign.

Mrs. A. P. Parr, President of the new Westminster Branch, guest speaker for the afternoon, said that the Royal City Branch had joined UGN largely because of the many industrial workers living in the city and area.

Colonel C. A. Scott, Commissioner of the B.C. Division of the Red Cross, also addressed the meeting.

W. Wood, Buena Vista Ave., was appointed campaign chairman for White Rock's next Red Cross drive.

The Junior Red Cross group had raised \$192.45, Mrs. J. R. Sinclair reported. This sum had been donated to the local hospital for the Children's

Dauna Kinnaird Wins I.O.D.E. Scholarship

A White Rock girl and Charter President of the local Junior Hospital Auxiliary, Dauna Kinnaird, has been named winner of the Kerrisdale Chapter IODE scholarship. Dauna, whose parents, Mr. and Mrs. J. S. Kinnaird reside on King George Highway, is already enrolled at the University of British Columbia in the Faculty of Public Health. During her school career at the Semiahmoo High School she took an active interest in dramatics and dancing and in 1955 was a candidate for the Miss White Rock crown, being sponsored by the Hospital Auxiliary. She is at present living in one of the Women's Residences on the Point Grey campus and "loving every minute of it," she told her parents.

Winner of the PTA Council Bursary, Dauna last year also won a \$100 bursary from the White Rock Hospital Auxiliary.

Announcement of her new award was made by UBC Scholarship Committee Chairman Dean Walter Gage. The list of over 150 winners included names of students from India, Hong Kong, Japan and British West Indies, as well as from Canada.

Wards, she said. The group had also paid \$32 in fees to Vancouver Red Cross Headquarters.

W.R. Rotarians Hear Chas. Defieux

Taking for his subject "International Relations," Chas. Defieux, former newspaper man and PNE Public Relations Officer, addressed the White Rock Rotarians at Tuesday's luncheon.

Mr. Defieux urged better understanding between all peoples of the world.

Reeve Nesbitt gave a lengthy report at Monday's Council meeting on the recent Convention of Canadian Reeves and Mayors he had attended in Hamilton, Ontario. He reported many other centres in Canada are suffering similar expansion problems as Surrey.

Huge Porcupine Seen In Crescent

For wildlife the Interior has nothing on this section of the Lower Mainland is the opinion of Mr. and Mrs. James McQuarters, proprietors of a seaside grill at Crescent Beach.

After a holiday trip to Kamloops in which they saw practically no interesting wildlife, the couple were driving down their own village street towards home when they saw a huge porcupine ambling across the road. No fooling!

The meeting, held at the home of Mr. and Mrs. Atkinson, Marine Drive, also named Ray Stewart to head the nominating committee, with power to add, for the coming election of officers, slated for the November meeting.

Pioneer School Principal Recovers From Illness

One of White Rock's well-loved teachers, Mr. Leo Williams of Merklein Street, is out of hospital after a month's illness.

The many long hours in a hospital bed were made less tedious by the kindness of innumerable friends and visitors who came daily with gifts of flowers and other heartening tokens of their esteem, the former White Rock Elementary School Principal reports. Now in his 87th year, Mr. Williams retired from teaching in 1929.

Municipal Planning Engineer Will be Hired

Council decided on Monday to hire a Municipal Engineer to assist in planning rapidly growing areas in the municipality.

A motion approved by Councillors stated that positions of both Superintendent of Utilities and Public Works would remain unchanged. The engineer will supervise and co-ordinate the two departments.

Applications for the position will be received to October 10, Reeve Nesbitt announced. It was pointed out that the Stevenson and Kellogg report of 1951 recommended a final plan for development of the District of Surrey should be put into effect by 1960.

Council also approved a motion to purchase a set of linen maps of the municipality at a cost of \$1,169.40. Planning officer R. Bentley stated the new maps would carry the house numbering system of the municipality.

Mr. Bentley said an earlier suggestion that the maps

might be made by the local staff manually would cost at least \$7,000 and would take two years to produce.

Date of November 3 was tentatively set for voting on the \$298,500 by-law for the proposed Surrey Memorial Hospital.

Woodward's Hill Sign To Remain Unchanged

A request from Mr. Ray Engle to change the advertising on the Standard Oil sign at the foot of Woodward's Hill was rejected by Council on Monday.

Councillors Stevens and Stewart pointed out the sign had been erected by special permission of the Council on the understanding it would be a sign to welcome visitors to British Columbia.

The Board of Works Committee stated they felt the advertising matter should not be changed.

Curling in White Rock To Start By November 1

A target date of November 1 has been set for the commencement of curling on White Rock's new sheets of ice at the Silver Moon, C. P. Ortnor, Curling Club President, has announced.

"Proprietor Len Long has assured us that two or three nights before that date, however, the sheets will be ready for new members wishing to get in a bit of practice before the opening date," Mr. Ortnor said.

Distinctive crest badges for club members have been ordered through Bert McAdam, the President reported, and are expected to be on hand shortly. Curling nights have been increased from four to six nights per week which will enable the club to accommodate 144 members.

Skips are asked to turn in the names of their respective rinks on or before the October

5 general meeting in the Silver Moon.

It has also been announced that associate memberships will be made available. Prospective members are asked to contact Cecil Ortnor, Syd Gibbons or Bert Watson.

Thanksgiving October 8

Monday, October 8 will be celebrated as Thanksgiving Day this year.

The provincial cabinet has declared the day a holiday under the Factories Act.

W.R. Wanderers Lose To Langley

Kick off at Langley High School last Saturday was taken by the Langley team. Long grass made ineffective the possible long passing but the Langley team picked a very good right wing which defeated the White Rock Wanderers' defence on 4 occasions.

Good work by McMillan and Sigurdson prevented quite a number of threatening plays by Langley. On the whole both teams played a good game. Result 4-0 in favour of Langley.

Sunday's match was cancelled owing to rain.

Coming games in the next week include: Sept. 29 (10 to 12 age group, game time 10.30 a.m. Saturday). Away game, Langley at Newton; Whalley at Fleetwood; bye, White Rock; Oct. 6, Fleetwood at White Rock; bye, Langley. (Age 15 to 17; game time 1 p.m. Sunday). Sept. 30, White Rock at Cloverdale; Oct. 7, Whalley at Newton, bye White Rock. Men's (game time 3 p.m. Sunday). Sept. 30, White Rock at Langley; Langley at White Rock. (12 to 14 age group, game time 11 a.m. Sunday). Sept. 30, Whalley at White Rock; Oct. 7, White Rock at Newton.

Pete Trotzky was named coach of the 10-12 age group with Bill Jiry trainer and Rusty McBain secretary.

Theatre Footnotes

Another honour has been reaped by Franklin Johnston, White Rock's Little Theatre Director. He has been named to act on the Provincial Centennial Drama Committee. UBC Drama Director, Dorothy Somerset, heads the Committee.

More anonymous donations have come to the Players' Club following the publicity about their unique pie marathon. Five dollars left at Amos Drygoods and another gift of three dollars from a well-wisher who also prefers to remain unknown, have been acknowledged to date.

Name of the pre-Christmas pantomime to be staged this year on December 6, 7 and 8, in the Semiahmoo High School auditorium, is "Puss and Boots." The local Hospital Auxiliary and the Players' Club are again co-operating to produce this popular big annual event.

White Rock Players' three-act festival play will be "The House of Bernard Alba." Former Players' member, Mrs. Etta Murphy, will journey from her home in Vancouver to rehearse twice a week for

her part in this production. Mrs. Murphy, who will be well-remembered for her past fine performances with the local club, has recently won a leading role in the Vancouver Little Theatre's coming production of "The King of Hearts."

Former White Rock Players' members, Brian and Freda Butcher, are very busy these days with roles in two plays in different communities. In the melodrama, "Only an Orphan Girl," being produced by the Burnaby Players on Oct. 12 and 13, Brian is playing Arthur Rutherford, the villain, while Freda is playing the part of Ma Perkins, the farmer's wife. In the Langley production of the A. A. Milne play, "The Dover Road," the local couple are taking leading roles as Leonard and Austasia. Arthur Capel, a newcomer to White Rock, plays the part of Nicholas.

Concert Series

Goes Over The Top

The Semiahmoo Overture Concert Association has gone over the top, with a reported membership of 275, which guarantees a series of three excellent concert events during the season to come.

Canvassers are still rounding up last minute subscriptions after which it will be possible to join the Association until next season. Heretofore, subscribers were asked to join the Association on speculation that there might be a series if the campaign were successful. Now, with the results of this week's campaigning, the series is assured, and new members are invited to participate in the Association.

As soon as the drive is formally closed, campaign officials under Programme Chairman, Alice Dewar, pianist and teacher from Newton, will caucus with Overture Concert representatives from Vancouver, and consider artists and feasible dates for the 1956-57 series.

"Pop" Shields

Has 84th Birthday

Andrew Fairbairn Shields, known to all kinds of people as "Pop" Shields, whose recipe for longevity is "old maxim" "Early to bed and early to rise" marked his 84th birthday this week by getting busy with tractor and plow on his farm at 15705 Brown Road.

"Pop" Shields' other rule for good health is to partake of very simple food and to drink milk in preference to all other beverages.

Welcomed back to White Rock after a lengthy visit to Manitoba this "Grand Young Man" is receiving best wishes from family and friends for many more healthy and happy years ahead. The day he got off the train he had a three-fold plan in mind: to visit his only daughter, Cecilia Romanes McKinnon, widow of John Montgomery (Monty) McKinnon; to be back at his

own place in time to vote, and then to get busy with tractor and plow to bring his acreage back into shape.

The day after his return from the East, his daughter held open house both afternoon and evening, in honour of her father's 84th birthday.

MANITOBA PIONEER

Mr. Fairbairn has been using the Canadian Pacific Railway now for over 74 years, having come to Manitoba with his mother to join his father, David Shields, and his elder brothers, who had preceded them to a homestead southeast of Brandon, near the village of Rounthwaite. When the parents returned to Scotland some years later, it was their youngest son, Andrew,

who carried on the work. In 1900 he married Elizabeth Creak, and they occupied the homestead home till 1906, when a move was made to the small town of Rosburn. It was here that Mr. Shields served as Alderman, and was respected by those who knew him.

In 1912 he became the proud owner of a REO, one of the two cars in the community.

He has been driving various makes of vehicles ever since, but thinks that much of the old time pleasure in taking a drive is lost now that the present high rate of speed allowed on the roads, prevents a reasonably careful driver from taking in the full beauty of the surrounding countryside.

THE OTHER 'PARIS' by MAVIS GALLANT are like strong, sparse charcoal sketches of Americans against backgrounds of Paris, Bavaria and Switzerland, often at odds with their European hosts and, more often, with themselves.

These stories are not in the least sentimental and display a rare clarity of understanding of the European and American unlikenesses. In this, Miss Gallant crisply conveys to a wide public what many learned text-books attempt to provide for the specialist. The last two stories are set in Quebec. Provinces are both witty and kind—the desert following the savoy.

Letters published in this column are the sentiments of the writers themselves and are not necessarily subscribed to by the Editors.

We must admit that in face of all the mud-slinging from the level of the gutter, marking this among the dirtiest campaigns ever known, Mr. Bennett, though he has once twice been moved to anger (and no wonder) never descended to the nefarious level of mud-slinging and vulgar operation.

The Legislative Council of 1865, pictured at left, had one member who was apparently present in spirit when he could not be present in person. The Assembly was called for January 13th. Charles Good was reported to have died, so the sitting was postponed a week in tribute to the deceased member. He had not died, but was so seriously ill that he was unable to be present when the Council was photographed on January 21st. The fact that his ghostly face appears between the two members at the right of the picture has never been explained.

Judge Bruce Fraser

Addresses W.R. Lions

One of the most informative and illuminating talks ever given in White Rock was made by Judge G. W. Bruce Fraser on Monday night. His Honour was addressing the White Rock Lions at their dinner meeting in the Silver Moon. Taking as his subject the organization of Canadian Courts and the administration of Justice, Judge Fraser described the way in which appeals are made and drew on an interesting fund of personal experience and anecdote to illustrate his talk.

Lions' President Dr. W. S. (Bill) Paterson, in thanking the speaker on behalf of the club, said that all members, he was sure, had emerged from the meeting with a much clearer idea of how Canadian Justice is administered. Members of the club, he said, were interested in questions for 40 minutes following his talk.

Special guests of the club for the evening were Messrs. Douglas, Brown, Thompson and Hunter.

RECIPE OF THE WEEK

Cheese As You Like It.

Few foods are so distinctive as cheese for few foods can be used in such a variety of ways in the luncheon, supper or dinner menu. There was a time when cheese was usually served as a final tid-bit to a substantial meal, but today its high food value in addition to its savoury flavour is rightfully taken into account. As a result this healthful food is one of the ingredients used in making an unlimited number of nourishing main courses. The following recipe for an excellent cheese soufflé was given to me by Mrs. Richard Field who, as Secretary of the local Women's Institute, is well-known in home-making circles in White Rock.

CHEESE SOUFFLE

Make a white sauce with 3 tablespoons flour, 3 tablespoons butter, 1/4 teaspoon salt, 1 cup milk. When cooked add: 3 egg yolks and 1 cup of grated cheese. Cook until set, then fold in very lightly stiffly-beaten whites of 3 eggs. set casserole or baking dish in pan of hot water and bake 35 to 40 minutes at 350.

Local CARS Group Hear Dr. Crease

The White Rock Branch of the Canadian Arthritis and Rheumatism Society (CARS), held their first meeting of the season on Monday, Sept. 24, at 8 p.m. in the White Rock Hospital. Mrs. Jessie Lee was in the chair.

Mrs. Lee welcomed Mr. C. L. Barker, Chairman of the Hospital Board.

A cheque for \$85 for the purchase of a wheel chair was presented by Mrs. J. Hazlitt on behalf of the Women's Institute.

Mrs. J. D. MacMillan reported that Mrs. Bachand had offered a room in her Victoria Avenue house for Arts and Crafts instruction to local arthritic patients.

It was pointed out that the main difficulty would be transportation. If anyone could help in this respect they are asked to phone Mrs. G. E. Heard, W.R. 44796.

Mrs. Heard is also in charge of the domestic assistance committee and reported an urgent need for volunteers to go into patients' homes and take care of such chores as ironing and window cleaning.

The guest speaker of the evening was the Branch's Hon. President, Dr. A. L. Crease.

Dr. Crease stressed the fact that personalities change under strain of illness, and how important it is to take care of the emotional aspects.

A person suffering from arthritis might become depressed or irritable, he said, but work such as that carried out by CARS members helps to bring courage to such patients and give them an interest outside themselves.

Dr. Crease congratulated the local Branch and reminded them that there is a big research division in Ottawa where research in arthritis is also being carried out.

Dahlias Grow Ten Feet Tall Here

Tall stories from other centres cannot begin to touch White Rock's "Tall" story of this week. It's about a dahlia which grew to an unprecedented height in the garden of F. A. Sprague, 14728 Donald Avenue.

The medium-sized (in diameter of flower, not height) red, show dahlia is now ten feet tall and still growing.

R. Telephones Up
100 Per Cent
10 Years

Remember when White Rock had only 129 telephones? It was way back in immediate post-world war two years. Now there are 2059 tele-

phones and the number is increasing every day. This is an increase of 1500 per cent in the past ten years.

White Rock's telephone system will expand even more rapidly through the Winter and early Spring, according to an announcement by R. S. MacPherson, district comm-

cial manager of the B.C. Telephone Company.

Installation technicians will be working nearly all Winter in the telephone office, adding more than \$150,000 worth of equipment. The additions will expand the capacity of the system by more than 60 per cent.

In his statement, Mr. MacPherson said, "Central Office facilities must be matched by a corresponding expansion of the outside distribution plant. Our plans call for more than \$100,000 worth of wire and cable to be placed throughout the exchange area."

Included in the outside projects is an increase in the number of trunks (or voice paths) from White Rock to the Newton office. These trunks, along with additional switchboard facilities which will be installed in Newton, will allow calls to Newton and beyond to be handled more quickly.

Mr. MacPherson pointed out that several new trunks went into service last week, so that service between the two points should be considerably improved. He added that the tourist peak had been passed, so that the load of calls has dropped off.

The new equipment, which is to be installed this Winter, will be in service well before the tourist season next year.

B.C. Electric Men Promoted

Two members of the local B.C. Electric staff were recently promoted to new positions in the Abbotsford office of the Company.

The two men are taking a course at Abbotsford in natural gas in preparation for the coming installation of gas in that area.

Mr. and Mrs. Vogt and infant daughter, have taken up residence in Abbotsford.

Recently Mr. Alan McDonald of Abbotsford was appointed gas manager for the B.C. Electric for the Fraser Valley.

Since July the B.C. Electric have been laying out distribution plans for natural gas in the Clearbrook and Abbotsford areas.

Serving with Mr. McDonald are Robert Draper of Mission City who is doing drafting and field survey work and Joe Boersma of Matsqui also on field survey.

Crescent Reservoir Hold 300,000 Gallons

The Crescent Beach Water Works Company's new reservoir on Stevenson Road is nearing completion, and what a boon it will be to this rapidly expanding district. It has taken 225 tons of concrete to build to its present stage of construction, as well as more than a mile of form wire, and more than a mile of reinforcing wire.

This reservoir will hold 300,000 gallons of water, as compared with our present tank's capacity of 30,000. It is 60 x 110 feet, has a water depth of 14 feet, and was built by Mr. Stan Coppard and Mr. Roy Flannigan. From the well to the reservoir there has been laid four-fifths of a mile of 8-inch water main, with a lift of 175 feet.

On a capacity test, held several weeks ago, a 60 h.p. pump was kept working for 10 hours, during which one quarter of a million gallons of water was pumped, and there was no trace of brine.

Badminton is said to have been invented at Badminton House, seat of the Duke of Beaufort in England.

In the Garden

By G. E. Sery, Garden Editor.

Saving Your Own Seeds.

Saving your own seeds may be a right just for the fun of it, but it is not a very satisfactory practice. For one thing seeds are comparatively cheap, and most seed firms can put reliable seeds on the market, and are usually true to kind. The professional seed growers have all the right equipment to do a much better job than we can. But for the fun of experimenting on the saving and growing your own seed there may often be some very interesting results. In the vegetable section, there are many sorts which it would be foolish to save the seeds, unless one variety only of that sort is grown and that a good distance from another variety of that particular family.

For instance, cabbages, cauliflowers, broccoli, kale, savoy and Brussels sprouts will all cross with one another, and the progeny of these would be the worst kind of mongrels possible. The only way to grow any of these for seed-saving would be to grow them in strictest isolation, about a mile away from any related variety. The same applies to sweet peas and turnips. Parsnips will often become pollinated by the wild parsnip, and the result would be useless. Carrots will cross-pollinate between varieties, and one should only save seed of carrots when only one variety is grown, and that well away from a neighbour's carrots.

Onions and leeks will cross-pollinate between varieties, and seeds can be saved when one variety is grown by itself.

But when we come to peas and beans it is a different story, as these are mostly self-pollinating, and seeds saved from good croppers should be ripened on the vines and only

good, well-filled pods should be saved; don't use the best pods for eating and save the poorer second best for seed. Lettuce is a self-pollinating plant and need not be grown in isolation. Beets, celery and radish must be grown in isolation, otherwise they will cross with other varieties.

FLOWERS BETTER

In the case of flowers, seed can mostly be saved with a high degree of success. But care should be taken that seed is saved only from the best plants. Choosing special specimen plants for saving seed may provide some interesting results. For instance, growing seeds from that beautiful Himalayan Blue Poppy, Meconopsis Baileyi, is a yearly must with me.

Among the perennial flowers, if the plant is a hybrid, the result of a cross of two different wild or species kind, it is unlikely the seeds will come true.

If the plant is a true species, seed can be saved with every prospect of success. Also most of the garden trees and flowering shrubs can be propagated successfully from home-grown seed.

In the case of annuals, if these have been planted in a variety of colours, some cross-pollination may take place, with the result of a variety of colour, and some wishy-washy mixture of colour in one flower. Still if varieties of annuals are not too close to each other a pretty fair success may be expected. California poppy, mignonette and flowering flax all usually come fairly true from their own seed.

Reidville Scouts

Honoured by Sen. Reid

Another red letter day in the history of the quickly-growing community of Reid-

ville saw the presentation of tartan scarves by Senator Tom Reid to the members of the 1st Reidville Scout Troop.

The ceremony took place on Thursday evening in the beautiful picnic grounds adjoining the home of the Senator.

Wm. Peterson, president of the Cub Group Committee, introduced the Senator to the Cubs and thanked him on behalf of both leaders and Cubs.

A demonstration of work followed, when the Cubs proudly wore their new scarves. President Peterson announced that the Charter is ready for presentation and November 1st was set as a tentative date for that ceremony.
